

Shunya Games

Scoring Reference

Sliding Puzzle

Completed Round	100 pts
Incomplete Round	0 pts
Time Bonus	$\text{floor}(10 \times \text{remaining time} / \text{total time})$
Final Score	Sum of round scores + time bonus

Arrows

Completed Round	50 pts
Partially Cleared Round	$\text{floor}(5 \times \text{arrows removed} / \text{total arrows})$
Empty Round	0 pts
Time Bonus	$\text{floor}(10 \times \text{remaining time} / \text{total time})$
Final Score	Sum of round scores + time bonus

Sudoku

Solved Round	100 pts
Unsolved Round	0 pts
Time Bonus	$\text{floor}(10 \times \text{remaining time} / \text{total time})$
Final Score	Sum of round scores + time bonus

Spot The Difference

Base Score Per Round	100 pts
Wrong Click Penalty	-5 pts per wrong click
Hint Penalty	-5 pts per hint used
Minimum Round Score	0 pts
Round Formula	$\text{max}(0, 100 - \text{wrong_clicks} \times 5 - \text{hints} \times 5)$

Time Bonus	$\text{floor}(10 \times \text{remaining time} / \text{total time})$
Final Score	Sum of round scores + time bonus

Sequence Recall

Score Per Click	total individual tile clicks that were correct across all successful rounds $\times$ scorePerClick (default: 10)
Time Bonus	$\text{floor}(\text{seconds left} \times \text{bonusTimeRatio})$ — only if no wrong moves were made
Default bonusTimeRatio	1.0
Final Score	successful moves $\times$ scorePerClick + time bonus

Memory Card Matching

Completed Level	100 pts
Incomplete Level	0 pts
Time Bonus	Remaining whole seconds — only if all levels completed
Final Score	Completed levels $\times$ 100 + time bonus

Infinity Loop

Solved Board	10 + remaining seconds on that board
Unsolved Board	0 pts
Time Bonus	None — time reward is baked into each board score
Final Score	Sum of all board scores

Block Fill

Easy Board	20 pts
Medium Board	30 pts
Hard Board	40 pts
Fallback Board	20 pts (if level name doesn't match easy/medium/hard)
Demo Board	0 pts
End Bonus	Remaining seconds left in overall game timer
Final Score	Sum of board scores + remaining seconds bonus

Maze Navigation

Complete round (optimal path)	100 pts
Complete round (inefficient path)	$\max(10, \text{floor}(100 \times \text{shortest_path} / \text{moves_taken}))$
Incomplete round	0 pts
Minimum Round Score(if completed)	10 pts
Time Bonus	$\text{floor}(5 \times \text{remaining time} / \text{total time})$
Final Score	Sum of round scores + time bonus
